Work Experience

MY PROJECTS

- **Fees Management System** – During my diploma I made this **website** for college. FMS is a website that is going to make the task of **college fee management** very easy.
  (HTML, CSS, JS , BootStrap, MySql, php)

- **Temperature Converter** - In this website you can convert Temperature units , and you can see amazing usefull Tamprature **facts** which is very usefull.

- python **Personal assistant -** It's just like '**Alexa** and '**Google Assistant'** And I've given it a name too "Samantha" .

- React **Text Utils -** you can **convert** your **HTML** to **XML** , text to Uppercase , text to lowercase ,

PART-TIME

- **Tuitions -** I teach programming skills to my juniors. free of cost , for knowledge purpose.

Hobbies & Achievement

- **Softball (state level) , chess(to represent College, School and myself)**
- **Interaction with people (to know defferent point of view)**
- **Mobile Gaming (to improve current design making abality & for fun)**
- **Making gaming Videos On YouTube**
